Strahinja Obradović 154/23 – Dokumentacija

1. Uvod

1.1. Korišćeni programski jezici i tehnologije

Prilikom izrade sajta za stomatološku kliniku **"DentCare"** korišćene su sledeće tehnologije i programski jezici:

- **HTML5** – za definisanje semantičke strukture svih stranica projekta (`index.html`, `service.html`, `appointment.html`, `contact.html`, `author.html`) i definisanje elemenata poput kontejnera, formi i interaktivnih dugmadi.
- **CSS3** – za stilizaciju, mrežni raspored (layout), napredne animacije, responsive dizajn prilagođen svim uređajima i definisanje vizuelnog identiteta klinike.
- **JavaScript** – za kompletnu logiku aplikacije: dinamičko generisanje navigacije, ispis usluga iz niza objekata, naprednu validaciju više formi pomoću regularnih izraza (Regex) i dinamičku manipulaciju DOM-om.
- **jQuery** – za optimizovano rukovanje događajima, rad sa eksternim bibliotekama i implementaciju glatkih prelaza.
- **Bootstrap 5** – korišćen kao osnovni framework za grid sistem i gotove komponente (navbar, carousel, cards).
- **Google Fonts** – za integraciju profesionalne tipografije ("Jost" i "Open Sans").

1.2. Opis funkcionalnosti

Sajt **"DentCare"** predstavlja kompleksno rešenje za stomatološku kliniku sa fokusom na korisničko iskustvo i validnost podataka. Implementirano je više nivoa dinamičnosti:

1. **Stranica Index:** Sadrži dinamički Carousel sa animacijama i pregled ključnih informacija.
2. **Stranica Services:** Umesto statičkog kucanja, usluge se generišu iz JavaScript niza objekata. Funkcija `renderDentalServices` omogućava automatsko kreiranje kartica sa slikama i opisima, što olakšava održavanje sajta.

3. **Stranica Appointment:** Sadrži kompleksnu formu za zakazivanje. JavaScript kontroliše svaki input (ime, email, izbor doktora, datum, vreme) i sprečava slanje dok se ne ispoštuju Regex pravila.
4. **Stranica Contact:** Implementirana je kontakt forma sa validacijom u realnom vremenu. Poseban fokus je na proveri formata email adrese i imena (obavezno veliko početno slovo).
5. **Dinamička Navigacija:** Na svim stranicama, navigacija se generiše programski. To omogućava da se linkovi za resurse poput **ZIP arhive** i **PDF dokumentacije** dodaju automatski, osiguravajući da su uvek dostupni korisniku bez obzira na kojoj se stranici nalazi.

- **Regex Validacija:** Stroga provera unosa (Ime Prezime, Email format).
- **Dynamic Rendering:** Generisanje sadržaja na osnovu podataka iz nizova.
- **User Feedback:** Personalizovane poruke o uspehu nakon uspešno obavljenih akcija.
- **Responsiveness:** Prilagođenost za mobilne uređaje uz pomoć hamburger menija.

ABOUT US

The World's Best Dental Clinic That You Can Trust

At DentCare, we believe that a healthy smile is the foundation of overall well-being. Our clinic is equipped with the latest dental technology to ensure that every treatment is precise, efficient, and —most importantly—comfortable for our patients.

Whether you need a routine check-up, professional whitening, or complex restorative surgery, our experienced team is here to guide you. We take pride in our patient-centric approach, focusing on education and long-term oral health rather than just immediate fixes.

- Award Winning
- 24/7 Opened
- Professional Staff
- Fair Prices
